

# DLTK's Crafts for Kids

## Corn Cob Craft

*Contributed by Leanne Guenther*

Make this corn on the cob craft to celebrate fall or the harvest season.

### Materials:

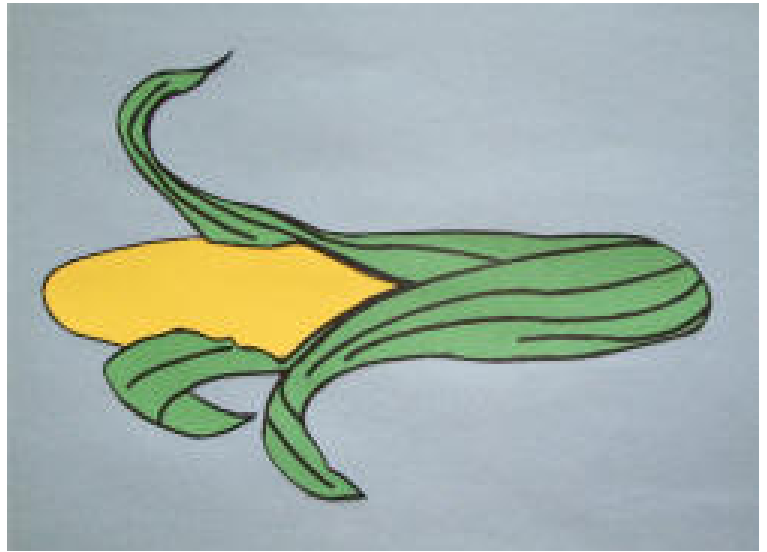

- paper,
- scissors,
- glue,
- something to colour with.
- Optional: construction paper.
- Optional: popcorn or yellow tissue paper if you choose to glue it onto the craft.

### Instructions:

- Print out the craft template of choice.
- Colour pieces, as necessary. (For a change of pace, try using different mediums than you typically do, such as paints or ripped pieces of tissue paper).
- Cut out the pieces. This step may require adult assistance.
- Glue the template husk onto the corn cob.

- Optional: Glue the corn with husk onto a background piece of heavy paper. It will make it easier to complete the next step.
- Optional: Glue popcorn onto the cob. This makes the craft a bit more difficult, so may not be appropriate for large groups of 2 and 3 year olds. Alternatively, for kids that young, you can scrunch up 1 inch pieces of yellow tissue paper to act as the kernels.

## Templates:

- Close the template window after printing to return to this screen.
- Set page margins to zero if you have trouble fitting the template on one page (FILE, PAGE SETUP or FILE, PRINTER SETUP in most browsers).

Template [\(color\)](#) or [\(B&W\)](#)
